

Commitment to public safety

We are committed to controlling risks, to which members of the public may be exposed, as a direct result of our operating activities. This commitment extends to all passengers, visitors to Group premises and those who may be affected by the way we conduct our business. Our operating companies are required to implement appropriate procedures and suitable arrangements to ensure this commitment.

Responsibility for risk assessment and the implementation of effective monitoring arrangements to meet this commitment rests with the managing director at each operating company. This policy is monitored to ensure that the objectives remain valid and are met and will be reviewed at least annually or more frequently in the light of legislative or organisational changes.
